

California

Data that describes child care – statewide and in California counties

The 2013 California Child Care Portfolio, the ninth edition of a biennial report, presents a unique portrait of child care supply, demand, and cost statewide and county by county. The child care data in this report was gathered with the assistance of local child care resource and referral programs (R&Rs). R&Rs work daily to

help parents find child care that best suits their family and economic needs. They also work to build and support the delivery of high quality child care services in diverse settings throughout the state. To access the full report summary and county pages, go to our website at www.rrnetwork.org.

Imperial County

Data that describes child care – statewide and in California counties

The 2013 California Child Care Portfolio, the ninth edition of a biennial report, presents a unique portrait of child care supply, demand, and cost statewide and county by county. The child care data in this report was gathered with the assistance of local child care resource and referral programs (R&Rs). R&Rs work daily to

help parents find child care that best suits their family and economic needs. They also work to build and support the delivery of high quality child care services in diverse settings throughout the state. To access the full report summary and county pages, go to our website at www.rrnetwork.org.

Data that describes child care – statewide and in California counties

The 2013 California Child Care Portfolio, the ninth edition of a biennial report, presents a unique portrait of child care supply, demand, and cost statewide and county by county. The child care data in this report was gathered with the assistance of local child care resource and referral programs (R&Rs). R&Rs work daily to

help parents find child care that best suits their family and economic needs. They also work to build and support the delivery of high quality child care services in diverse settings throughout the state. To access the full report summary and county pages, go to our website at www.rrnetwork.org.

Data that describes child care – statewide and in California counties

The 2013 California Child Care Portfolio, the ninth edition of a biennial report, presents a unique portrait of child care supply, demand, and cost statewide and county by county. The child care data in this report was gathered with the assistance of local child care resource and referral programs (R&Rs). R&Rs work daily to

help parents find child care that best suits their family and economic needs. They also work to build and support the delivery of high quality child care services in diverse settings throughout the state. To access the full report summary and county pages, go to our website at www.rrnetwork.org.

Data that describes child care – statewide and in California counties

The 2013 California Child Care Portfolio, the ninth edition of a biennial report, presents a unique portrait of child care supply, demand, and cost statewide and county by county. The child care data in this report was gathered with the assistance of local child care resource and referral programs (R&Rs). R&Rs work daily to

help parents find child care that best suits their family and economic needs. They also work to build and support the delivery of high quality child care services in diverse settings throughout the state. To access the full report summary and county pages, go to our website at www.rrnetwork.org.

Data that describes child care – statewide and in California counties

The 2013 California Child Care Portfolio, the ninth edition of a biennial report, presents a unique portrait of child care supply, demand, and cost statewide and county by county. The child care data in this report was gathered with the assistance of local child care resource and referral programs (R&Rs). R&Rs work daily to

help parents find child care that best suits their family and economic needs. They also work to build and support the delivery of high quality child care services in diverse settings throughout the state. To access the full report summary and county pages, go to our website at www.rrnetwork.org.

Data that describes child care – statewide and in California counties

The 2013 California Child Care Portfolio, the ninth edition of a biennial report, presents a unique portrait of child care supply, demand, and cost statewide and county by county. The child care data in this report was gathered with the assistance of local child care resource and referral programs (R&Rs). R&Rs work daily to

help parents find child care that best suits their family and economic needs. They also work to build and support the delivery of high quality child care services in diverse settings throughout the state. To access the full report summary and county pages, go to our website at www.rrnetwork.org.

Data that describes child care – statewide and in California counties

The 2013 California Child Care Portfolio, the ninth edition of a biennial report, presents a unique portrait of child care supply, demand, and cost statewide and county by county. The child care data in this report was gathered with the assistance of local child care resource and referral programs (R&Rs). R&Rs work daily to

help parents find child care that best suits their family and economic needs. They also work to build and support the delivery of high quality child care services in diverse settings throughout the state. To access the full report summary and county pages, go to our website at www.rrnetwork.org.

Data that describes child care – statewide and in California counties

The 2013 California Child Care Portfolio, the ninth edition of a biennial report, presents a unique portrait of child care supply, demand, and cost statewide and county by county. The child care data in this report was gathered with the assistance of local child care resource and referral programs (R&Rs). R&Rs work daily to

help parents find child care that best suits their family and economic needs. They also work to build and support the delivery of high quality child care services in diverse settings throughout the state. To access the full report summary and county pages, go to our website at www.rrnetwork.org.

Data that describes child care – statewide and in California counties

The 2013 California Child Care Portfolio, the ninth edition of a biennial report, presents a unique portrait of child care supply, demand, and cost statewide and county by county. The child care data in this report was gathered with the assistance of local child care resource and referral programs (R&Rs). R&Rs work daily to

help parents find child care that best suits their family and economic needs. They also work to build and support the delivery of high quality child care services in diverse settings throughout the state. To access the full report summary and county pages, go to our website at www.rrnetwork.org.
