## Family & Child Data

The 2023 California Child Care Portfolio, the 14th edition of this biennial report, offers a comprehensive look at licensed child care supply, demand, and costs across the state and within each county. It also includes data on population, poverty, and family budgets. Local child care Resource and Referral programs (R&Rs) played a key role in collecting these data. R&Rs assist parents in finding child care that meets their family's needs while also supporting child care providers with resources and licensed capacity-building efforts in their communities.
