Tips on Updating Provider Profile Fields

Tips on Contact Information Fields

- **Address (Centers) or Cross Streets (Family Child Care Homes)**
 - Family child care providers can set cross streets to help families identify a nearby location without revealing exact home address. For rural areas, please consider setting cross streets further away from your home. You can leave the cross streets blank to just show City and ZIP code.
- **Business Name or Provider Name**
 - FCC's can enter their programs business name if applicable. The default business name for FCC's is "provider last name, provider first name".
 - Ex. Cindy Smith will display as "Smith, Cindy"
- **Ages Served**
 - Show families the age range of children you enroll in your program
- **Phone number, email and/or website**
 - You can choose to show a public email address and/or website.
 - Referral phone number is shown for all providers who want to give online referrals.
- **Vacancies**
 - Vacancies are displayed for 60 days. If you haven't updated your R&R your current openings in the last 2 months, it will say "Contact Provider for Details".

Tips on Basic Fields

This is your space to attract families to your program. Please provide details about your programs features, philosophy and qualifications.

- **"About Me" Field**
 - Add a personal message about your program to help families learn about you and what makes your program special. (How long your program has been running, program's philosophy, qualities, etc.)
- **Environment and Staff Photo**
 - Upload personalized photos (Environment and Staff) to help your profile stand out.
